Breakout Gardening

Dot-voting gave us several clusters:

- Confusion
 - Review quickly to see whether the group wants to spend time improving understanding
- General consensus
- Contentious items
- Chartering

Manu re Credentials CG and DID chartering proposal

CCG proposed DID WG charter, focused on data model

<https://w3c-ccg.github.io/did-wg-charter/>

CG is also doing experiments around protocol, resolution

About 15 different DID methods, think we're ready to standardize data model
