

# Strong Authentication and Identity Workshop

<https://www.w3.org/Security/strong-authentication-and-identity-workshop/>

real-time chat & minutes (irc): <http://irc.w3.org/> #auth-id

WORLD WIDE WEB

The WorldWideWeb (W3) is a widearea hypermedia[1] information retrieval

Technical[19]

Details of protocols, formats, program internals  
etc

**SIR TIM BERNERS-LEE**  
**INVENTOR OF THE WORLD WIDE WEB**

Director, W3C

# World Wide Web Consortium

“Leading the Web to its full potential.” Voluntary consensus standards: cooperative solutions for open, interoperable platform improvement.

[The Art of Consensus.](#)

**Web for all.** Accessible, Internationalized, Secure, Private

Royalty-free patent policy.

**475 members** as of December 2018, including technology builders and users; for-profit companies, academics, non-profits, and government agencies.

[Code of Ethics and Professional Conduct:](#) Treat each other with respect

Standards work well for

- Shared technical problem
- Good enough technical solution
- Ecosystem interest in common resolution

W3C provides the forum and process: community and membership develop the specifications.

# Workshop Agenda

2 days of mixed presentation and discussion.

Experimenting with multiple modes of hearing from everyone in the room: cards, dots, and breakouts.

Cards: Write down your questions and concerns during sessions, and we'll gather them as sessions conclude.

Dinner tonight:

Who's in for an on-campus dinner?

Who needs a shuttle (about ½ mile)?

# Minutes and reporting

This workshop is invite-only. We'll follow with a public report.

We take minutes in irc:

<http://irc.w3.org> (yes, it's http)

channel #auth-id

- Please state your name when speaking
- `q+` to say something new adds you to the speaker queue
- scribing conventions
  - `speaker:` what they said
  - use `@@1..n` if you miss a name or phrase while scribing
  - `s/@@1/Name/` replaces `@@1` in the meeting record

# Thanks!

Program Committee:

- Manu Sporny, Digital Bazaar
- Paul Grassi, Easy Dynamics
- Drummond Reed, Evernym
- Christiaan Brand, Google
- Kaliya Young, Internet Identity Workshop
- Tony Nadalin, Microsoft
- JC Jones, Mozilla
- Pindar Wong, VeriFi
